Welcome!

The presentation you are about to enjoy is part of the Idaho Humanities Council A250th Speakers Bureau program.

The Idaho Humanities Council is a nonprofit dedicated to serving Idaho citizens by providing opportunities to deepen public understanding of the human experience by connecting people with ideas.

Thank you to support from the National Endowment for the Humanities and generous private donors, IHC's A250th Speakers Bureau presenters visit all corners of Idaho. I would encourage you to visit their website, idahohumanities.org, for more information.

This program is designed to provide expert speakers to help Idahoans commemorate America's 250th anniversary. Open, honest, and respectful dialogue is a tradition in Idaho's civic discourse, and we value differing points of view. Please treat this topic, the speaker, and each other with respect and kindness.
